Train-the-Trainer Program in Entrepreneurship

MODULES:

- 1.Fundamentals of Entrepreneurship and Entrepreneurial Education
- 2.Psychology in Entrepreneurship: Mindset and Resilience
- 3.Open Innovation
- 4.Digitalization and Business Strategies
- 5.Business Models, Differentiation and Innovation
- 6.Bootcamp and Final Pitch

OBJECTIVE:

To equip participants to understand, apply and transmit the fundamentals of entrepreneurship and innovation. To develop the technical skills and mindset needed to identify opportunities. To design viable business models and lead entrepreneurial projects in digital and collaborative environments, with special emphasis on the ability to teach and mentor others on their entrepreneurial journey.

METHODOLOGY:

Online format via the Moodle platform, combining live sessions and autonomous work.
